

RONAK SINGH

Frontend Developer | Aspiring SDE Intern

New Delhi, India | ronak9718z@gmail.com | 7042906877 | [GitHub](#) | [LinkedIn](#) | [Portfolio](#) | [LeetCode](#) | [CodeChef](#) | [Codolio](#)

SUMMARY

B.Tech Information Technology student and frontend developer skilled in building clean, responsive, component-driven UIs with React.js and modern CSS. Comfortable working across the stack in a supporting capacity (Node.js/Express, REST APIs, Supabase) to ship complete features end to end. Backed by a strong DSA foundation (400+ LeetCode problems, Codeforces Pupil). Seeking an SDE Internship to grow as a well-rounded software engineer.

SKILLS

- **Languages:** Java, JavaScript, HTML5, CSS3
- **Frontend:** React.js (incl. React 19), TanStack Router/Query, Tailwind CSS, Responsive Web Design, UI/UX principles
- **Backend (working knowledge):** Node.js, Express.js, REST APIs, MongoDB, Supabase (Auth, Postgres)
- **Core CS:** Data Structures & Algorithms, OOP
- **Tools:** Git, GitHub, VS Code, Postman

EDUCATION

Bhagwan Parshuram Institute of Technology (GGSIPU)

B.Tech in Information Technology | 2024 - 2028 | CGPA: 8.47

CBSE Class XII (PCM) - 95%

CBSE Class X - 92.6%

PROJECTS

Interview Ace — AI Interview Preparation Platform | *React 19, TanStack Start, Tailwind CSS, Supabase, AI Gateway (Gemini)* [Live Demo](#) | [GitHub](#)

- Built the full frontend of an AI mock-interview platform — a timed interview room, live progress/timer UI, and an analytics dashboard (score trends, skill breakdown, history) using React, TanStack Router/Query, and Tailwind CSS.
- Implemented dark/light theming, responsive layouts, glassmorphism UI, loading skeletons, and toast notifications for a polished, production-style user experience across devices.
- Worked with Supabase (Auth + Postgres) on the backend side to wire up authentication and data fetching, and helped integrate AI-generated interview questions and evaluations into the UI.
- Used React Hook Form + Zod for form validation and Recharts for data visualization across the dashboard.

CampusBuddy AI — Smart India Hackathon (SIH) 2025 | *React.js, Node.js, Express.js, MongoDB, Gemini API* [Live Demo](#)

- Built the frontend for an AI-powered campus maintenance platform at the Smart India Hackathon, designing an intuitive interface for students to report campus issues.
- Built responsive React components and streamlined the reporting workflow for 500+ potential campus users, and helped wire up authentication, complaint tracking, and a dashboard to the Node.js/Express backend.
- Collaborated on integrating the Gemini API so free-text complaints are turned into structured, actionable maintenance reports.

Personal Portfolio | *HTML, CSS, JavaScript* [Live Site](#)

- Designed and deployed a responsive personal portfolio showcasing projects, skills, and achievements, optimized for both desktop and mobile with modern UI/UX principles.

ACHIEVEMENTS

- Solved 400+ problems on LeetCode with a maximum rating of 1653.
- Codeforces: Pupil rating.
- CodeChef 2★ programmer with a highest rating of 1469.
- Participant, Smart India Hackathon (SIH) 2025.
- Participant, VIBE 2 SHIP Hackathon.
- Maintained a CGPA of 8.47 while actively building frontend-focused, AI-integrated projects.

OPEN SOURCE & EXTRACURRICULAR

- Exploring open-source contributions through Sugar Labs (GSoC preparation).
- Actively practicing competitive programming and frontend development; consolidated coding profile available on [Codolio](#).
